

So many people (including myself, my husband and my daughter) have been touched by K-LOVE. I listen just about every day, to hear the great Christian music and the news stories and weather. I feel great when I know other people in our community are listening to K-LOVE and I know K-LOVE affects their lives very deeply. I believe

our community needs K-LOVE and the positive and encouraging message this station provides. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming our community would be greatly dis-served, as we need this encouraging programming in order to grow and flourish as a population! Please consider how many people you would be affecting if you choose to displace K-LOVE. Our lives just would not be the same.
